**Revaluation Procedure** - As per the circular issued by the JNTUK dated 26.11.2025 with Proc.No. E/JNTUK/Examination Procedures/UEC/2025

Students applying for revaluation are advised to carefully read and understand the following instructions

1. All answer scripts for which revaluation is applied will undergo a **second valuation (V2)**.
2. The external marks will be compared between the first valuation (V1) with marks obtained in the second valuation (V2). If the difference between V1 and V2 is less than 20% of the maximum external marks, the final external marks shall be the average of V1 and V2.
3. If the difference between V1 and V2 is equal to or more than 20% of the maximum external marks, the answer script shall be evaluated by a third evaluator (V3). In such cases, the final external marks shall be the average of all three valuations, calculated as:

$$\text{Final External Marks} = \frac{(V1+V2+V3)}{3}$$

#### **Important Note**

If a student applies for revaluation, the **result declared after the first valuation (V1) becomes completely void.**

Therefore, after revaluation:

- the student may secure **higher marks**,
- the **same marks**,
- **lower marks**, or
- may **fail**, even if declared pass earlier.

Students are advised to apply for revaluation **after due consideration** of the above rules.
